| ❖ Artificial Fill Procedure | ❖ Proper use of nail drill |
| ❖ Client Consultation | ❖ Basic 3D Nail Art |
| | ❖ Advanced 3D Nail Art |

Theory Course Content:

The theory component of the Nail Technology program is delivered one day a week throughout the entire duration of the course. The curriculum is derived from and covers all major aspects of the *Milady's Art and Science of Nail Technology* textbook.

Theory classes are conducted in a casual classroom setting. Lectures are enhanced with keynotes supplied through overhead projection, and discussion is encouraged throughout. At the conclusion of each chapter, students are assessed through written examinations.

In addition to the basic textbook theory, classes are held covering some of the latest innovations in Nail Technology. These classes take the form of periodic in-class seminars and are often taught by visiting professionals from within the Nail Technology industry.

Materials Required:

Textbook – *Milady's Art and Science of Nail Technology*
Student Nail Kit
Lab Coat

Evaluation:

13 Theory Exams	50 marks
21 Practical Assessments	50 marks

**Passing Grade in Theory
and Practical:** 70%

OUR AIM

At London School of Hairdressing and Aesthetics, we are committed to providing quality instruction in hairdressing, aesthetics, and nail technology. In addition, we are committed to helping students attain their career goals and to preparing them to pass any applicable provincial exams. In the Nail Technology department, it is our goal that every student leaves the school having received in depth training in every major aspect of the Nail Technology industry.
